Implant Dentistry-A prosthodontic Perspective

Tee-Khin Neo, BDS, MS, FRACDS
3 Mount Elizabeth
#07-08 Mount Elizabeth Medical Center
Singapore 228510

The science of dental implant has increased exponentially over the last decade. However, the restoration of dental implant is still based empirically from the principles of conventional prosthodontic rehabilitation of our patients, it should not be perceived as the panacea for all dental problems. Its role should rather be viewed as complementary to conventional prosthodontics.
