Citri-Fi™ doesn't just hold water, Citri-Fi™ binds it!

Wheat Fiber Soy Fiber Cottonseed Fiber Oat Fiber Citri-Fi™

When water is bound this tightly, Citri-Fi™ makes an exceptional fat replacer!

Citri-Fi can be used to replace up to 50% of the fat in a product without changing taste, texture, volume, or cost! What does change, however, is a reduction in saturated fats, trans fats and calories. Products made with Citri-Fi taste great, are much healthier and do not add cost to your existing formulas.

Full Fat Muffin 50% Fat with Citri-Fi™

FIBERSTAR™
