At first it is...

Pallet System and Unit Lord System are seeds to carry out logistics to do the living of our human being wealthily !

■ **Member nation (10)**

Japan, China, Korea, Thailand, Malaysia, Philippines, Indonesia, Vietnam, India, Myanmar

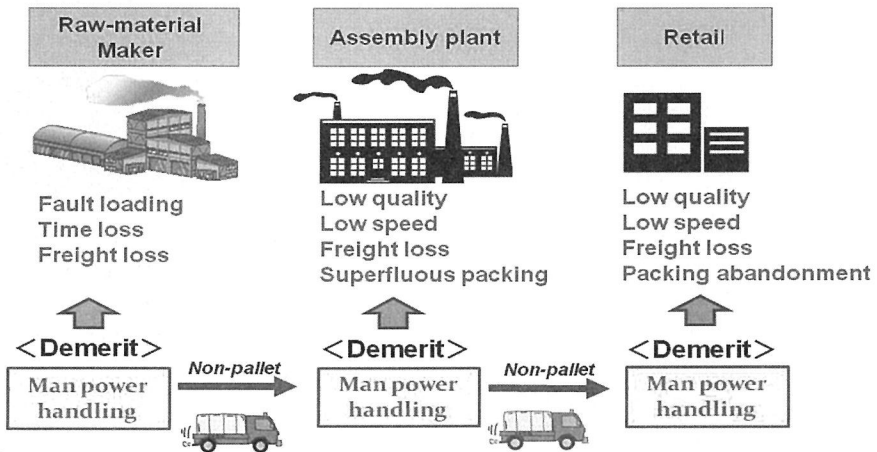

<http://www.apsf.asia>

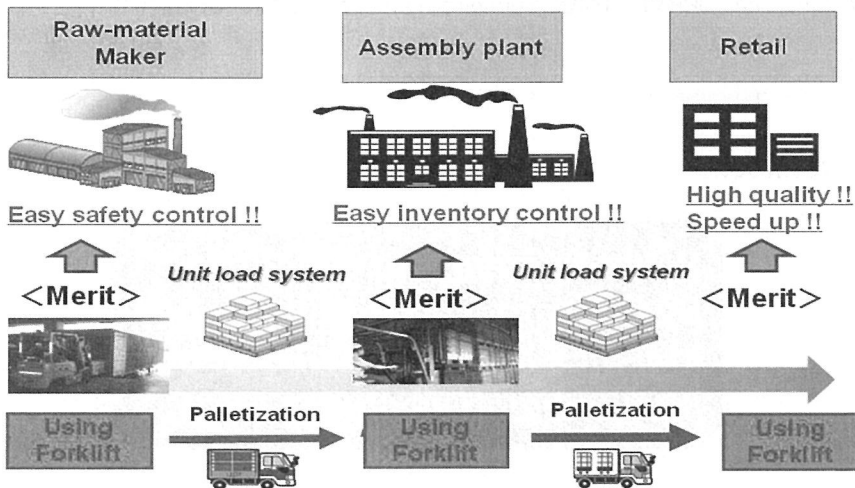

■ **Activity of APSF**

- ① Use promotion of the Asia Standard Pallet (11 form .12 form)
- ② Promotion of the Asia Returnable Pallet System
- ③ Development of the Asia Unit Load Common Rule
- ④ Development of the APSF marking system
- ⑤ Cooperation with the government of own country

Breakaway from non-pallet Physical Distribution by the Man power handling

To carry out the palletization which using forklifts

Problems and directionality of the APSF activity

1. Standardization of the pallet size & quality

As a place of the discussions, the public and private sectors of each country cooperate and promote APSF positively.

2. Construction of Asia Returnable Pallet system

A government of every country of ASEAN cooperates and builds an international returnable pallet system.

3. To free Returnable Pallets from taxation

Construction of the structure which the customs of each country make an exemption from taxation when the company of the APSF member nation uses the returnable pallet which APSF prescribed.

Pallet size standardized by ISO

Size	Remarks
800mm × 1,200mm	E U
1,000mm × 1,200mm	Asia and Europe
1,140mm × 1,140mm	EU chemical industry community
1,219mm × 1,016mm	North America bloc
1,067mm × 1,067mm	North America bloc and Australia
1,100mm × 1,100mm	Asia bloc

(2012)

National standard pallet size of Japan, China and South Korea

	National standard	year	Size
Japan	JIS Z0601	2001	1,100mm × 1,100mm
China	GB/T 2934-2007	2008	1,100mm × 1,100mm 1,200mm × 1,000mm
South Korea	KSA 2175-2008	2008	1,100mm × 1,100mm 1,200mm × 1,000mm
